ELEVATING
WORK PLATFORMS

NL160TF

Elevating Work Platform

Working Height
16.2m

Ground-Basket
14.2m

Rated Capacity
350kg

Working Reach
12.3m

To Basket Edge
11.6m

Fly Boom
180°

Continuous Slew
360°

Basket Rotation
180°

Features & Benefits:

- Full 180 degree articulating fly boom gives unrivalled access to go under or through obstacles.
- Large 1500mm wide (internal) basket with full capacity 180 degree rotation allows two people to face their job with ease.
- Operator safety is ensured with wet high voltage insulation to 132kV/33kV/LV
- Lighter and stronger construction consisting of high tensile steels and optimised Nifty-Lift composite structures, resulting in greater payload for tools and equipment.
- Our Enhanced User Interface provides intuitive operation, a detailed user guide, help screens, fault diagnosis and overrides to guarantee minimal downtime.
- Superior side reach, zero tailswing and limited slew modes provide plenty of flexibility for your difficult jobsites.
- Rounded and nested profile covers and low profile basket frame ensure wires and branches do not catch during tight works.
- Simplified large joystick remote controls with fully proportional speed control and dual deadman.

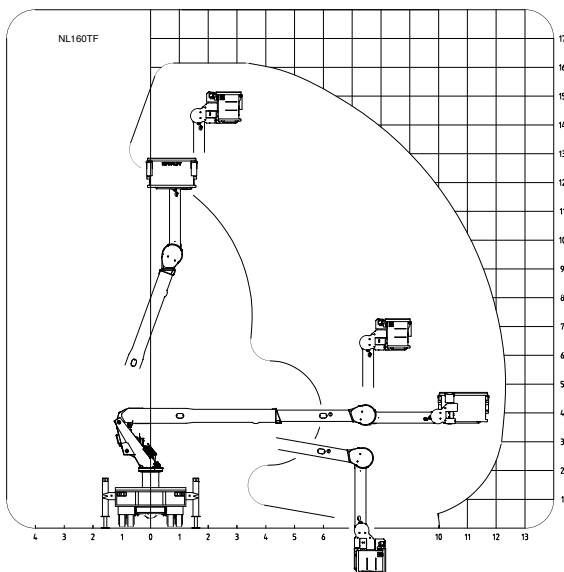

The NL160TF – The Next Evolution

The NL160TF is designed specifically for the power industry, and combines many of our industry leading innovations resulting in a highly productive EWP for utilities and contractors. With proven features such as 180° articulating fly boom and 180° rotating basket, the NL160TF also benefits from our new technologies incorporating high grade steels and engineered fiberglass components. The NL160TF gives greater payload for tools and equipment, and enhanced reliability for lower overall cost of ownership.

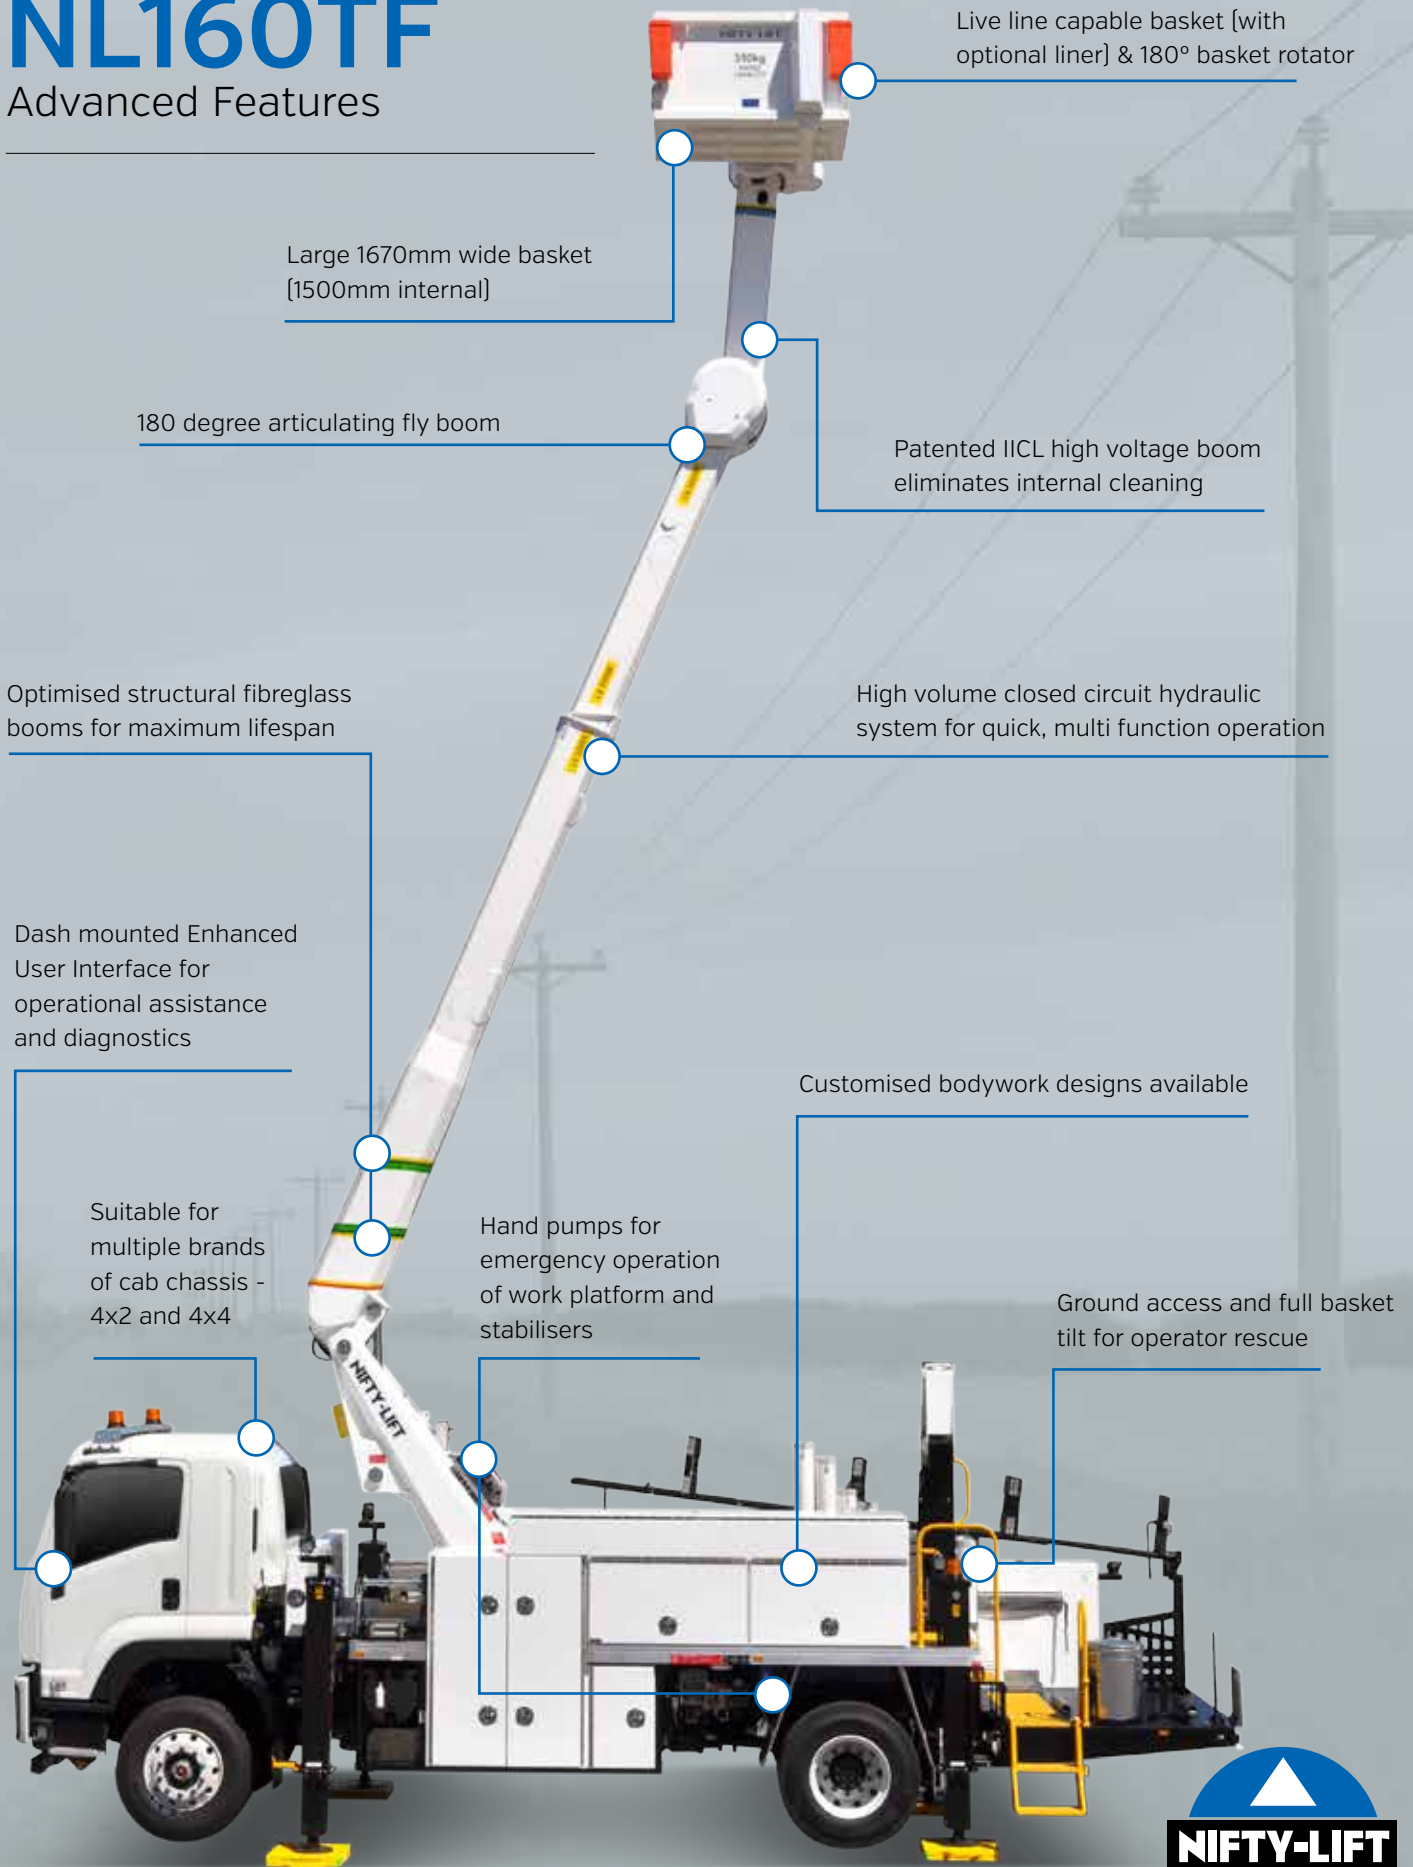

Optional Accessories

- Many basket options including hydraulic tool outlets, various lifting attachments and tie off points
- Long stroke stabilisers are available for increased levelling ability in steep locations
- Spring lockouts and Pole to Pole options available for high volume work (subject to cab chassis)
- Extensive range of bodywork options including toolboxes, cable drum holders, signage racks, cone holders, vices, lighting and towbar kits

ELEVATING
WORK PLATFORMS

Why Choose Nifty-Lift?

Designed & Engineered In Australia

Our optimised designs ensure greater job site performance coupled with less downtime, giving you higher productivity and lower cost of ownership over the life of the work platform. Nifty-Lift has over 25 years of experience designing innovative access solutions, and through extensive industry consultation and the use of cutting edge engineering software we have produced a range of industry leading models. Our experience and expertise gives owners and operators piece of mind when working at height in a Nifty-Lift elevating work platform.

After Sales Support

We support our work platforms through their entire lifecycle, not just under warranty. The team of highly experienced Nifty-Lift service technicians are available to assist operators, fleet owners and workshops with training, advice, documentation and product upgrades. We partner with our customers for life.

Parts Department

Nifty-Lift stocks thousands of genuine spare parts. We can easily arrange overnight freight for all your spares and service items to ensure your EWP is returned to service with minimal downtime.

Nifty-Lift reserves the right to alter specifications without notice. Photographs and drawings in this document are for illustrative purposes only. Product shown in photos contains optional features. Nifty-Lift, in so far as it is permitted by law to do so, shall not be liable in any way as a result of any reliance by any person on anything contained in this brochure. Please contact Nifty-Lift for current and detailed specifications.
